## A Book for Every Industry . . .

This book depicts the life and struggles of maintenance in seeking better ways and means in improving how to manage and maintain their equipment and assets. The Author shares his passion and experience about the day to day struggles in the life of a maintenance. The problems, issues and struggles we face in maintenance is generic and can be felt by any industry from whatever place, race and culture. This book contains real life stories, struggles and actual experiences by the Author in his career in maintenance and currently as a Reliability and Maintenance Consultant.
